THE ALPHA PAD, THE CONTROLLER DESIGNED FOR ESPORT

- Compatible with all PC games:
 - 2 «Controller» modes for games compatible with DirectInput and XInput technologies
 - Pro-Gamer: for all games. The controller emulates a keyboard and gaming mouse
- Dedicated software will allow you to create and modify your profiles by adjusting the button mapping, the sensitivity of the right analogue stick, its response curve and other settings.
- 4 different profiles can be saved onto the controller
- Improved range of movement for the right analogue stick
- 4 additional rear action buttons
- 8 direction Dpad, created for fighting games
- Adjustable controller weight (Weights included)
(2x10g / 2x14g and 2x17g)
- Detachable braided cable with metallic connector
- Storage Case included
- Windows® 7/8/10 compatible
